

WCS-50LB Weapons Clearing Station

Designed, Tested, Australian Manufactured

Dimensions:

340mm Long; 285mm High; 150mm Wide.

Main Body Construction:

Stainless Steel Tube, End Caps and Base.

Total Weight:

13.5.kg (Including Ballistic Media Pack).

Ballistic Media Pack:

Field Replaceable.

Bushing:

Polymer with 80mm diameter muzzle clearance port. (Bushing is Field replaceable) For special purposes an optional Bush with 110mm clearance is available.

Internal Blast Shield:

Field Replaceable polymer disc.

External Fixings:

Stainless Steel Screws and Bolt.

Internal Fixings:

2 off internal circlips & 1 off external circlip.

Blast Containment and Dispersal Area:

sufficient area to enclose a Muzzle Brake up to 70mm long.

Maintenance tools required:

Hex Key, Spanner, large Internal Circlip pliers, large external Circlip Pliers.

Wall or Desk mountable

Blaser Sniper Rifle, 0.338 Lapua Magnum APWC (Tungsten core) M16 Carbine full auto

WCS-50 on Quick Detach Pedestal Mount:

Fully Welded 304 Stainless Steel Construction

Dimensions with clearing station attached:

300mm Wide x 470mm Deep x 870mm High

Test Data Table: Handgun

Calibres NATO/US/Australia	Calibres Former Soviet & Eastern Block	Remarks
The WCS-50 can be used with calibres from 5.7x28 to 50AE (Including all AP handgun)	The WCS-50 can be used with calibres from 5.45x25 to 9x18 (Including all AP handgun)	Refer to test reports for further clarification Will contain full auto fire

Test Data Table: SMG/Carbine

Calibres NATO/US/Australia	Calibres Former Soviet & Eastern Block	Remarks
The WCS-50 can be used with SMG/Carbine calibres such as 4.6x30/5.7x28/9x19/30M1 (Including all AP variations)	The WCS-50 can be used with SMG/Carbine calibres from 7.62x25 to 9x18 (Including all AP variations)	Refer to test reports for further clarification Will contain full auto fire

Test Data Table: Rifle

Calibres NATO/US/Australia	Calibres Former Soviet & Eastern Block	Remarks
The WCS-50 can be used with the following Rifle calibres: 5.56x45/7.62x51/7.62x63 (.30-06) .338 Lapua Magnum 12.7 x 99 (.50 BMG) (Including all AP variations excepting 12.7mm SLAP and HE)	The WCS-50 can be used with the following Rifle calibres: 5.45x39/7.62x39/7.62x54R 12.7 x 108 (Including all AP variations excepting 12.7mm SLAP and HE)	Refer to test reports for further clarification Will contain full auto fire up to 7.62 Up to 4 impacts .338 LM APWC Single impact 12.7 M2AP

Ballistic Armour Panels

Multifile Weapon Storage Australia offer a range of Ballistic Armour Panels using advanced composite Materials. Offering lightweight ballistic protection for Rifles and Pistols into new or existing infrastructure. Ideal for use in Weapons Clearing Areas and Issuing Rooms. Ballistic Panels are available to meet Ballistic Resistant Standards including AS/NZS2343:1997 and NIJ STD 0108.01.

Features:

- Captures projectile and spall within the panel compared to high ricochet risk in steel solutions
- Can be cut and drilled using standard power tools on site.
- Can be installed onto timber or steel studs.
- Corrosion resistant, impervious to oil, water and lubricants.
- Paintable surface finish.
- Greater flexibility when designing protective wall partitions.
- Covered by Limited 5-year Warranty.
