WEAPONS STORAGE AUSTRALIA

For over 27 years Multifile/Weapons Storage Australia has been at the forefront of specialist weapons storage systems for Australian/NZ Defence and Police Forces, Australian Border Force, Australian Federal Police, and Corrections.

Multifile's expertise in design and manufacture provides its customers with the highest quality service backed by premium quality, innovative products. Multifile also ensures that each of its products complies with the relevant Standards and Regulations.

The flagship of Multifile/WSA's weapons storage system is the Integrated Weapons Storage Platform. By incorporating a Universal Weapons Panel, a variety of weapons can be stored in a vast array of configurations. This provides the ultimate in flexibility and future proofing.

Multifile/WSA also supplements its proprietary line with an extensive range of security and dangerous goods cabinets to cater for the customised requirements of Australian and NZ military and police forces.

**At Multifile/WSA, we offer more than specialised storage
we offer solutions**

Expandable Weapon Racks (EWR)

The **Expandable Weapons Rack (EWR)** is the most economical and space efficient solution for the storage of weapons and peripheral equipment inventory. Designed and manufactured with intrinsic flexibility in order to accommodate both present and future weapon and equipment storage requirements. EWR remains the ideal solution for small or large-scale secured armouries and vaults in both land-based and shipboard installations.

Major Features:

- Heavy gauge steel construction
- Low floor space area for high volume weapons storage
- EWR can be reconfigured quickly and efficiently just by adjusting or changing components to suit other weapons
- EWR can be free standing or secured to the floor or wall and can be fixed to decks and bulk heads for shipboard armoury EWR can be free standing or secured to the floor or wall, and can be fixed to decks and bulk heads for shipboard armoury.

Expandable Weapon Racks (EWR)

Available in Single Sided or Double Sided Configurations

General Specifications:

Height: 2135mm

Width: 865mm and 1035mm

Depth: Single Sided EWR: 425mm
Double Sided EWR: 743mm

Finish: Grey Santex – Compliant for land based and shipboard applications

Additional EWR Bays:

Are available to add-on in widths of 973mm and 810mm.

Bulk Storage, Touch Free Inventory Weapons With or Without Attachments

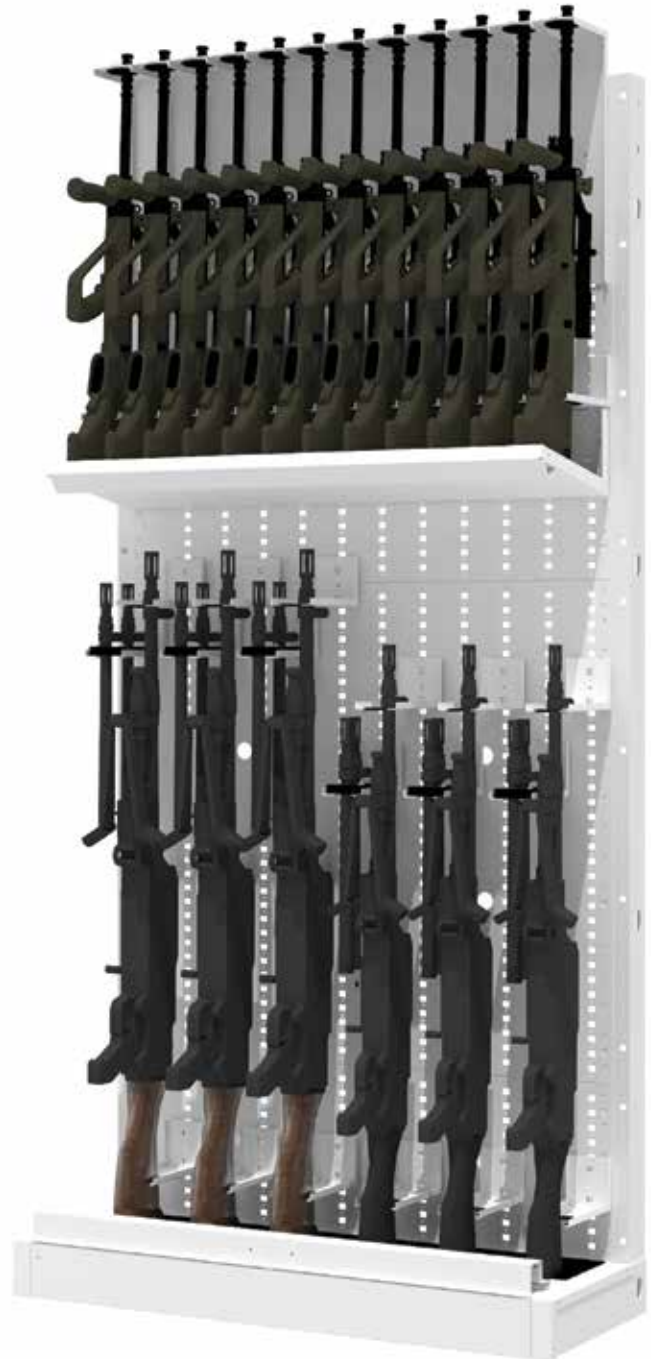

- Pictured Left: 36 Steyr or M4 without attachments
- Pictured Middle: 18 Steyr with angled Components for touch free scanning of weapon with scope and laid
- Pictured Right: 26 Steyr on EWR

Machine Guns with Spare Barrels

Using WSA's specialised components, the EWR can accommodate multiple weapon types including rifles and machine guns with or without barrels.

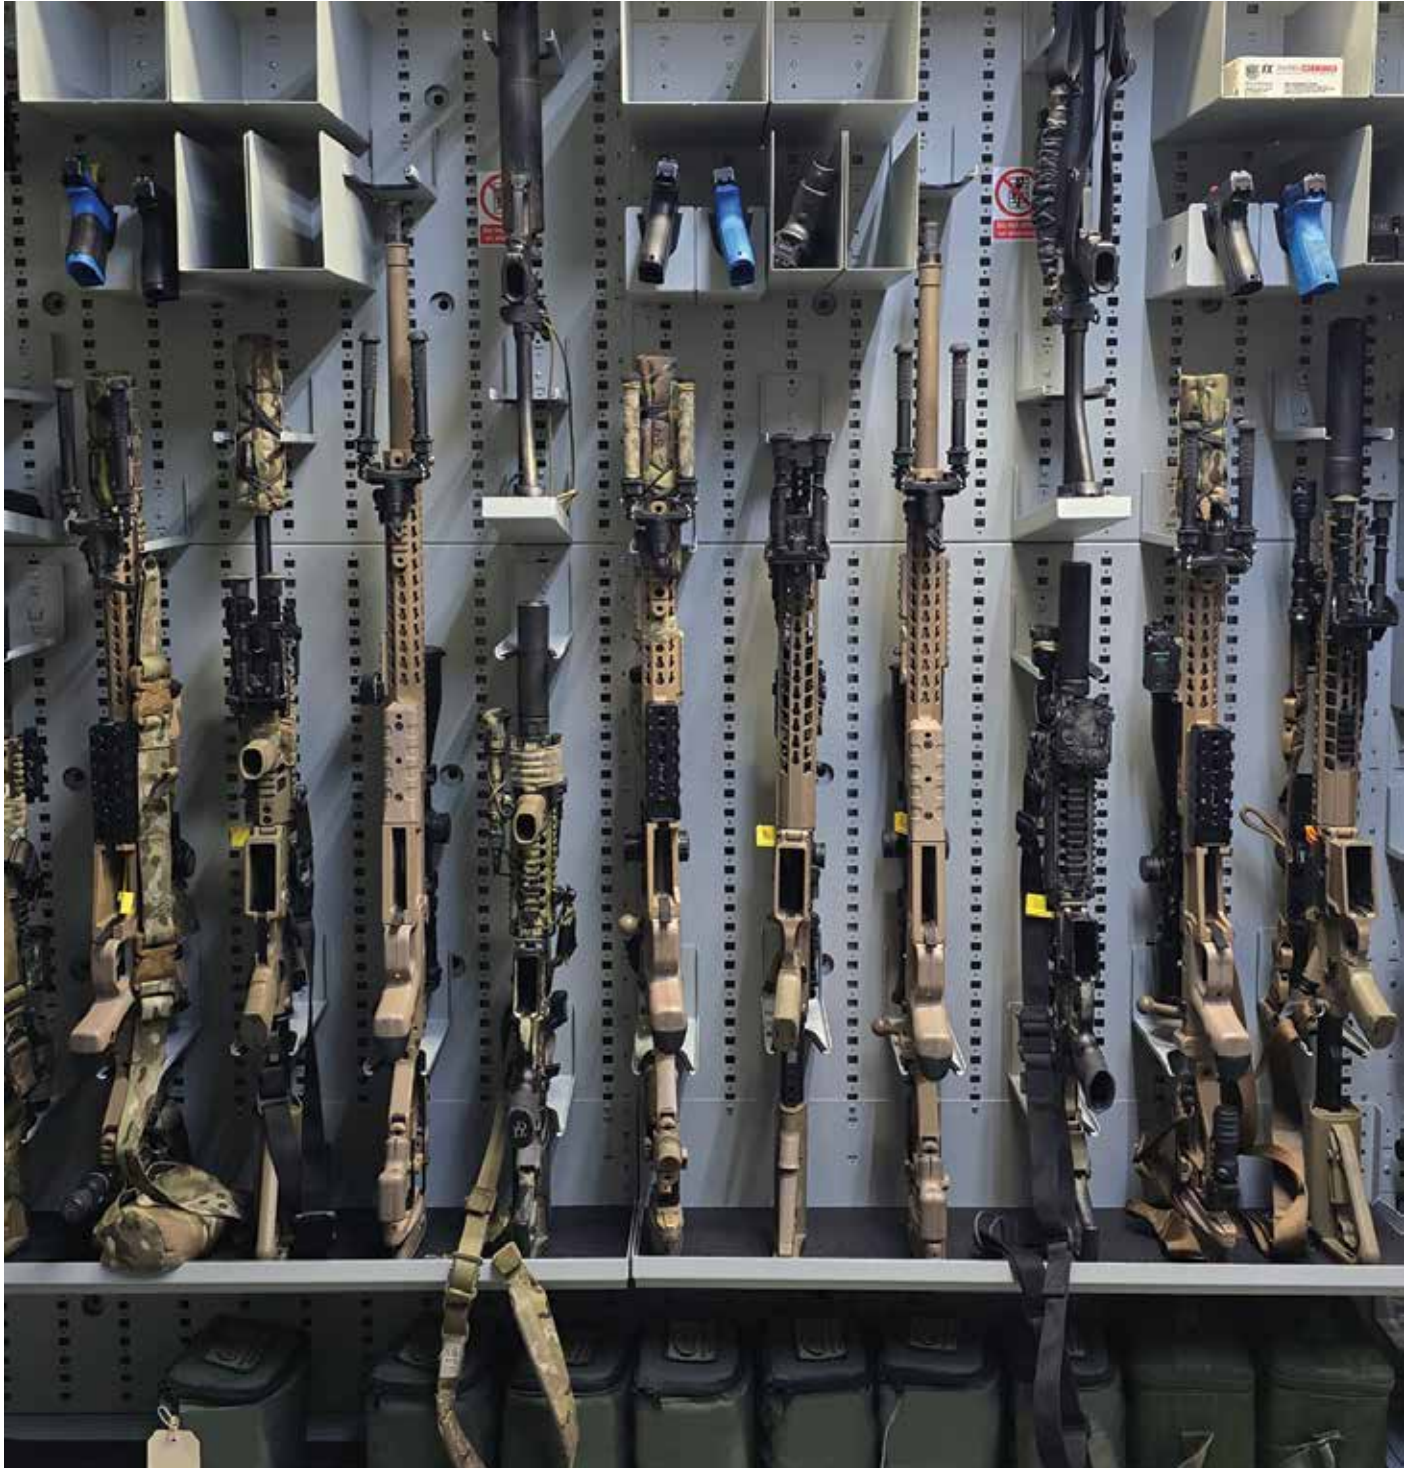

**2 Capacity Spare Barrel Holder
for Mini-Mag / M1919's**

**6 Mini-Mag or M1919 with 2 spare barrels
on an EWR / 12 Steyr's on the top.**

Personal Issue, Special Forces Kit & Storage

Solutions to Cater for Teams of Weapons
or Groups or Individual Users

Sniper Kit Storage

Rifles / Barrels / Pistols / Plates / Suppressors

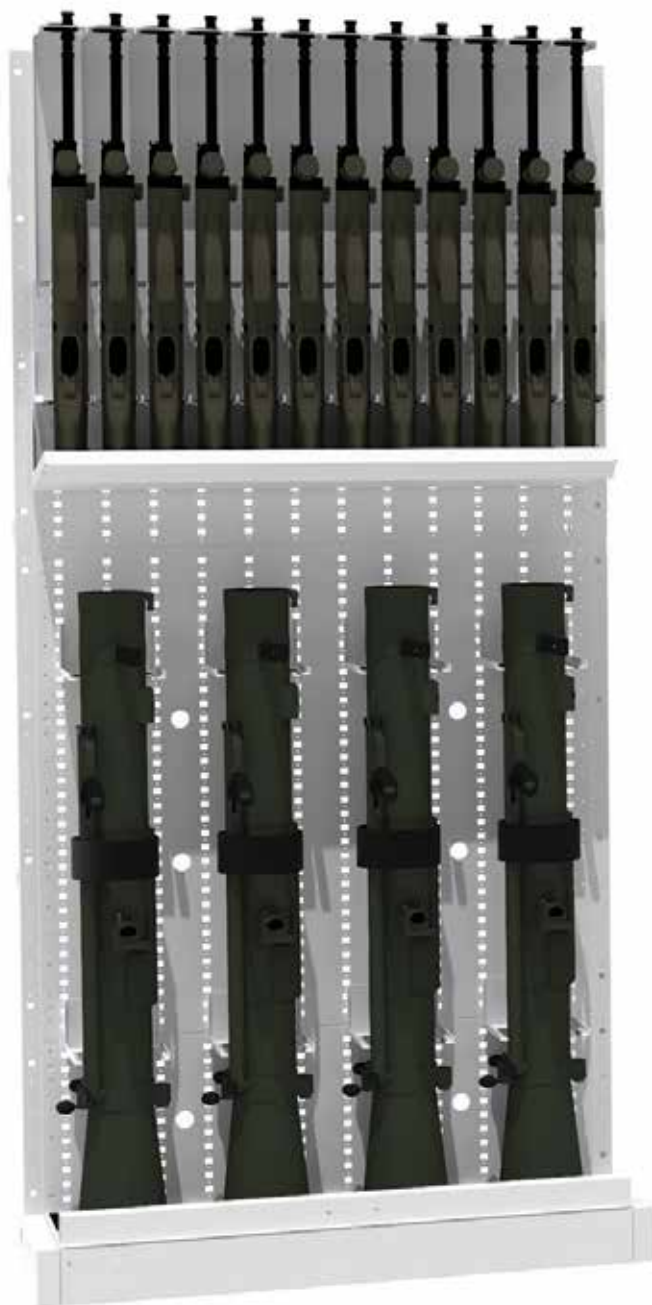

WSA's range of components allows for the storage of group weapons or individual kit to facilitate ease and speed of issue

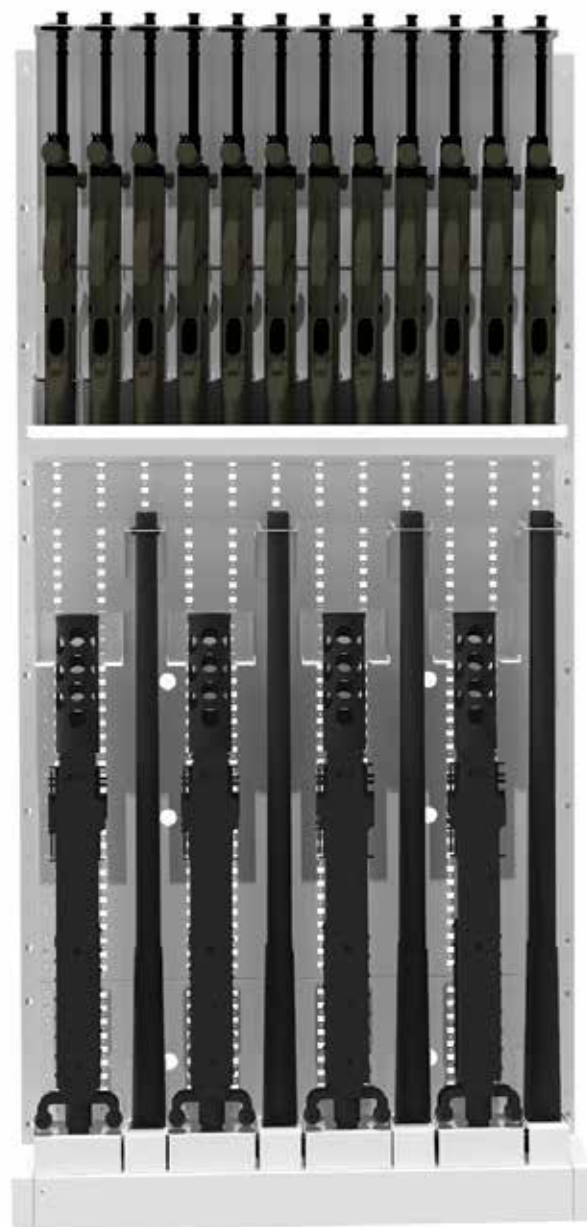

Individual Kit Storage

Heavy Weapons - 84mm & 50 Cals

Expandable Weapons Racks are rated to accommodate all heavy weapons and equipment

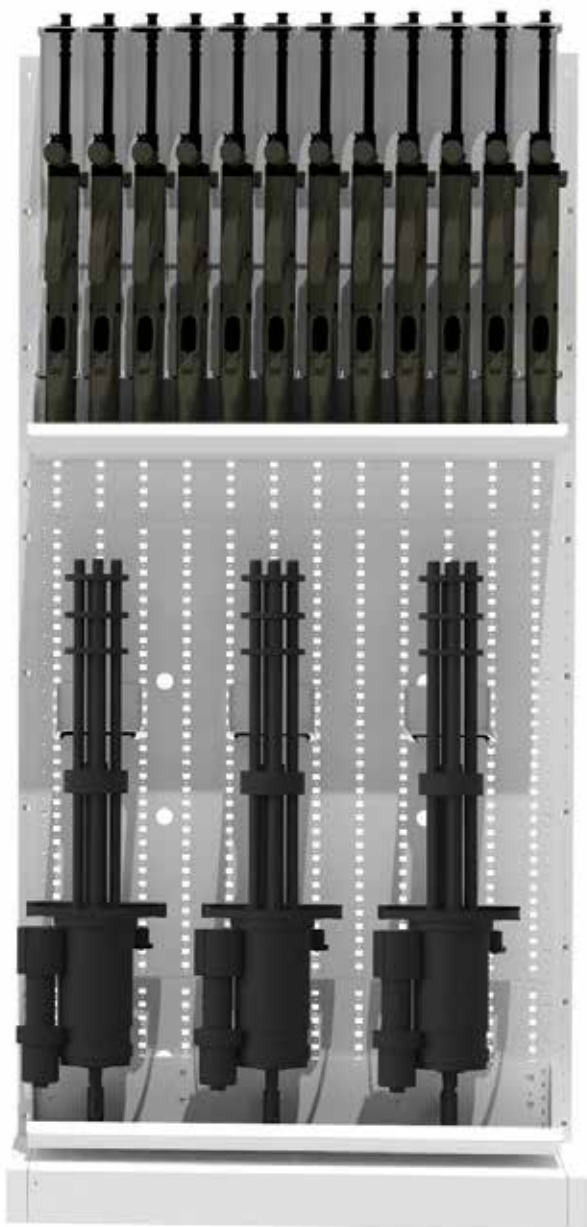

4 x Carl Gustav bottom level
12 Steyrs top level

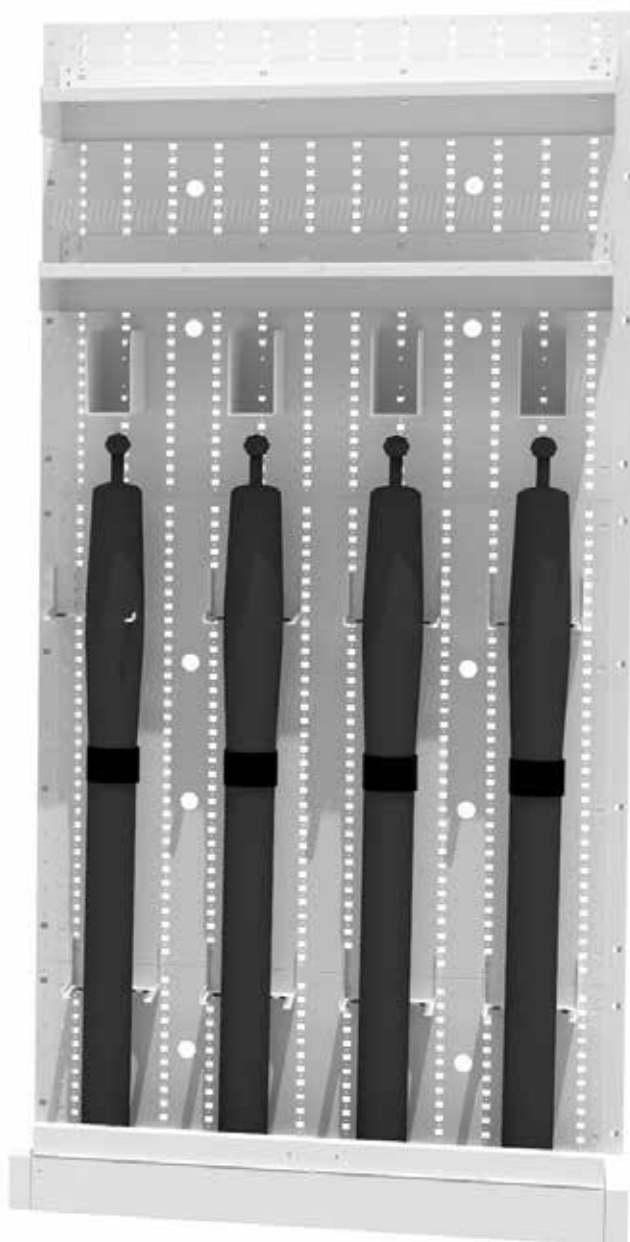

4 x 50 Cals bottom level with
8 Spare Barrels / 12 Steyrs top level

Heavy Weapons - Mini Guns & Mortars

The high load rating of Multifile/ WSA's expandable weapons racks ensures that they can cater for all weapons and user types

3 x Mini Guns with spare Barrels
bottom level / 12 Steys top level

4 x Mortars bottom level with shelving
and storage boxes on top

Integrated Weapon Storage Panels

WSA Wall Panels are the alternate solution to weapons storage

Utilizing the Universal Panel template along with the WSA extensive range of weapons components, any weapons or ancillary equipment can be safely stored.

- Manufactured from 16 Gauge Cold Rolled Steel with Reinforcing supports
- Compatible with the WSA range of components
- Combine multiple panels for any wall size
- Designed with mounting holes for installation on any surface
- Components fixed with security screws where required.
- Powder Coat Finish Black / Powder Coat Finish Black
- Off the shelf solution

Dimensions Single Panel:

1016mm (W) x 610mm (H) x 25mm (D)

Mobile Weapons Carts

Mobile A-Frame Weapons Cart will transport up to 20 Long Arms from an armoury to a training facility, vehicles, or gun range.

The Multifile/WSA Weapons Tank is designed for greater capacity and can transport up to 48 Long Arms.

The heavy-gauge steel cart is durable, yet light enough to easily maneuver through hallways and doors with the welded steering handles and four heavy-duty wheels (two lock). Both sides of the cart are made using our universal panel and the cart is compatible with over 50 of our weapon storage components – so you can transport almost any weapon.

The carts are powder-coated with a black Sandtex finish for added durability and will fit through most armoury doors.

Dimensions A-Frame:
1220mm (H) x 860mm (W) x 680mm (D)

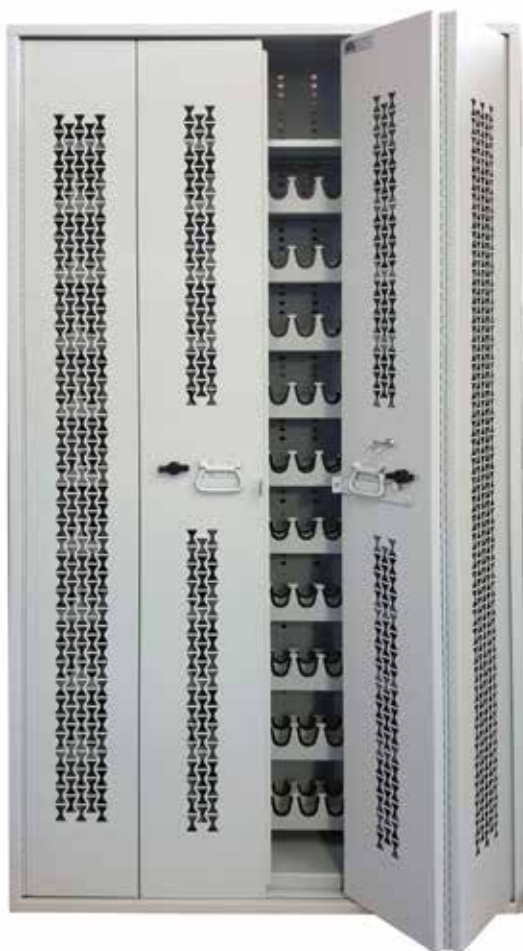

Dimensions Weapons Tank:
1880mm (H) x 1067mm (W) x 762mm (D)

Bi-Fold Security Weapons Cabinets

Bi-Fold Security Cabinets are the ultimate secure access storage solution when space is limited.

Bi-folding gates save approximately 35% in floor space compared to traditional gates helping to free-up aisle-space and reduce mobility issues. The all-welded steel construction provides high-level security and is equipped with our unique cloistered built-in side-lift handles which have been designed to prevent intrusion. The interior back of the cabinet is fitted with our universal back panel system making the Bi-Fold compatible with all weapons' components.

The front of the Bi-Fold cabinet is secured by perforated Bi-folding gates that allow for the visual inspection of weapons while in situ. Bi-Fold Security Cabinets also come with a multi-point locking mechanism and swing-arm padlock hasp.

Bi-Fold Security Weapons Cabinets

Major Features:

- Heavy gauge steel construction fully welded
- Abloy security lock and keys
- 7 point lock mechanism
- 35% space saving
- Padlockable
- Low floor space area for high volume weapons storage
- Can be reconfigured quickly and efficiently just by adjusting or changing components to suit weapons

Available Sizes:

164cm H x 107cm W x 38cm D 122cm H x 107cm W x 38cm D 183cm H x 107cm W x 38cm D 2134cm H x 107cm W x 38cm D

Tambour Door Security Cabinets

The Tambour Door Security Weapons Cabinet is a unique storage solution that has been specified for both the military and law enforcement communities, where 'security' and 'hidden from sight' are important factors to the end user. The Tambour Door Weapons Security Cabinets are designed for land based or shipboard installations. The Tambour Door Weapons Security Cabinets are supplied as standard with an all steel bi-parting tambour door with an Abloy Security lock in addition to an Optional Perforated Viewing Security Gate.

Locking - 5 Points

- Tambour Door - 3 position with Abloy Security Lock
- Tambour Door - 10mm Locking Bar that is pad lockable
- Perforated Viewing Security Gate with Abloy Security Lock

Tambour Door Security Cabinets

MAJOR FEATURES:

- Heavy gauge steel construction fully welded
- Standard with bi-parting tambour door with lock
- Optional perforated viewing Security Gate constructed of 16 gauge steel with perforated facia and Abloy security lock and keys
- Low floor space area for high volume weapons storage
- Can be reconfigured quickly and efficiently just by adjusting or changing components to suit weapons
- Store firearms vertically, horizontally, or diagonally
- Sniper rifles and assault rifles can be stored with scopes and grenade launchers attached
- Handguns can be stored in removable packs with or without clip storage and individually locked
- Roll Out security Deep Drawers with Lockable Lids (Abloy Locks) available.
- All components can be secured to the universal back panel with regular or security screws

Available in 4 Standard Sizes:

Dimensions:

153cm H x 91cm W x 57cm D

168cm H x 91cm W x 57cm D

183cm H x 91cm W x 57cm D

211cm H x 91cm W x 57cm D

Tambour Door Pistol Security Cabinets

Pistol Pac is the most versatile solution for the bulk storage of Pistols. Compatible with our complete range of Safes, Cabinets, Racks and Wall Panels. The pistol pac can be fitted with optional 3/8 Stainless Steel Locking Rods to prevent removal of the weapon. The Pistol Pac can also be fitted with a retainer for ship based applications. Available in 1, 6 and 8 capacities.

Taser Security Storage - X2 - X26P - T7 - T10

The Taser Pac is a fully adjustable solution compatible with our complete range of Safes, Cabinets, Racks and Wall Panels. Available in 1, 6 and 8 capacities, the Taser Pac is designed to accommodate all tasers commonly in use Australia Wide. Individually cradled with each device fully isolated by polymer bushes to prevent damage to the device and reduce risk of electric shock. Fully adjustable and interchangeable in the event of changes in capacity or specifications with reversible insert.

WSA Security Cabinet showing:

- 64 x T7 Tasers
- 2 x Cartridge Drawers (112 capacity)
- 4 x T7 AXON Battery Charging Docks

6 Capacity Taser Pack

3 Point locking roll-out cartridge drawer with 50-60 cartridge capacity per drawer

Weapons Security Safes

Weapon Storage Australia's Weapons Security Storage Safes have been designed to accommodate WSA's universal panel system which allows for the secure storage of a complete range of weapons and equipment.

Features:

- Fully Welded Solid Steel Construction
- 3 to 6mm Body and 6mm Door
- 20mm Bolt Work with up to 10 points of locking
- Security Hinge Return running the full length of door
- Anti Tamper Re Locker Device
- SCEC Endorsed Government Bi-Lock
- Steel Anti Drill Plate for Locking Mechanism
- Includes our Integrated Weapons Panel System compatible with our range of weapons storage components

Weapon Storage Australia's Integrated System allows users to customize the safe layouts to meet their unique storage requirements.

Store any combination of:

- Pistols
- Long Arms
- Tasers
- Ammunition
- OC Spray
- Cuffs & Batons etc

Perforated TA-50 Gear Lockers

The TA-50 Locker is designed to cater for high capacity gear storage.

The TA-50 Gear Cage can be configured for a variety of users by utilizing the adjustable hanger bars and the placement of the heavy-duty shelves.

The fully welded steel TA-50 has perforated sides and gates to facilitate easy visual inspection and ample air ventilation. The gates are secured with a multi-point locking mechanism including a padlock hasp.

The cage is constructed from zinc-coated steel, primed, then finished in a black powder-coated Sandtex to maximise durability. It also comes equipped with feet for ease of levelling on uneven surfaces and aides in hosing and cleaning underneath the cabinet. As a fully welded unit, no assembly is required.

Weapons Clearing Stations

The WCS-50LB weapons clearing station is designed to defeat and contain military and civilian ammunition up to and including 12.7 x 99mm. Catering for all weapons, Pistols, Rifles, Machine Guns up to 50 Calibre, Solid tungsten core capable of handling M16 Carbine on full auto.

Specifications:

- 304 Stainless-Steel Construction
- Ballistic Ceramic Core
- HDPE Front Bushing with 80mm diameter muzzle clearance for Glock with light attached
- Wall or Desk Mountable
- Optional Stainless-Steel Stand

Test Standards:

- All testing performed by NATA accredited Laboratory
- Ammunition up to and including 12.7 x 99mm
- Projectile types include. Armour Piercing (AP) Armour Piercing Tungsten Code (Yi/)

50 Cal in WCS-50LB

Optional Stand for left and right-hand users

Ballistic Panels & Weapons Clearing Booths

The WSA Ballistic Panel is a multi-layered fiberglass panel which offers a lightweight, easy to install and modular protection solution for new or existing infrastructure applications.

Ballistic Wall Systems consist of a series of modular Panels easily configured to provide multi-level ballistic resistance for infrastructure hardening applications. Each of the ballistic resistant configurations are independently certified in accordance with AS/NZ 2343:1997 for 'Bullet Resistant Panels and Elements'.

The 'Module System' consists of a simple butt-joint construction providing a series of ballistic resistant panels to provide protection to a nominated coverage area.

Weapons Clearing Booths

Weapon Storage Australia's Weapon Clearance Booths are independently tested for full model compliance in accordance with AS/NZS 2343:1997. This ensures the ultimate in ballistic resistance and safety for the end user and surrounding members and infrastructure.

Use of advanced composite materials ensures full encapsulation of the projectile and projectile fragments following an accidental discharge.

Features:

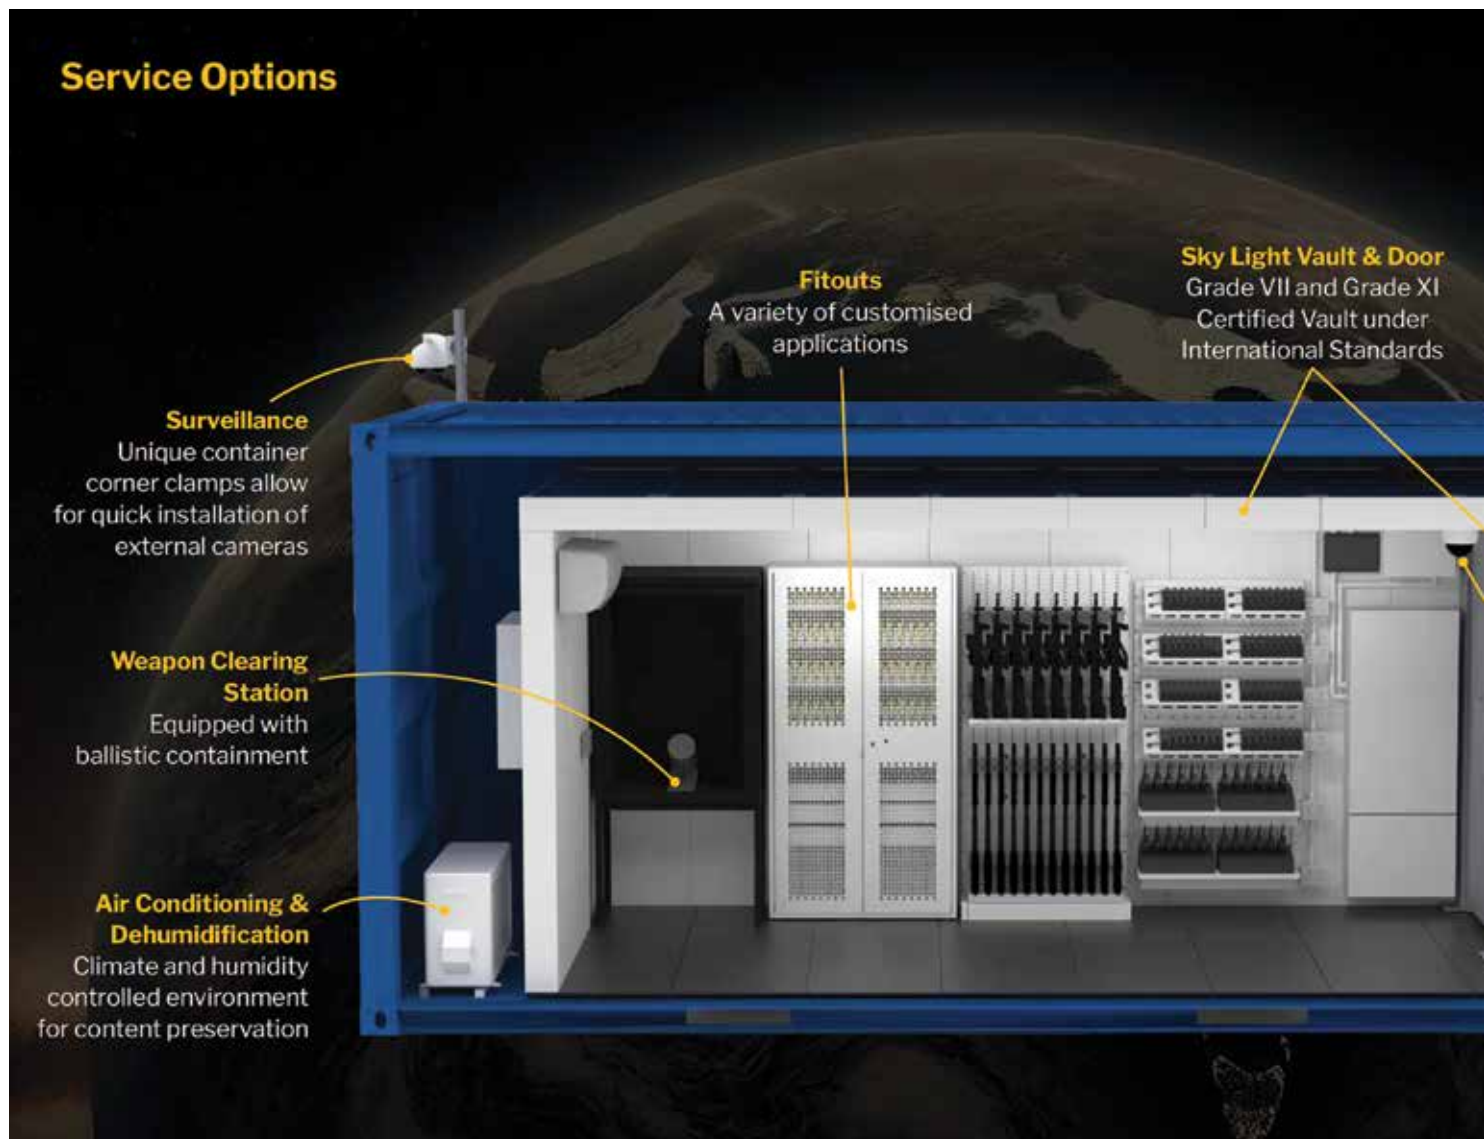

- Ballistic rated walls, roof and floor provides 270° of protection.
- Acoustic internal lining reduces noise impact of discharge.
- May be used with Conducted Energy Devices with barb capturing internal lining
- Is available in 3 Different Models

Sky LightWeight Container Vaults

AUSTRALIAN INNOVATION

The vault system represents a groundbreaking advancement in secure storage solutions. By leveraging recycled materials, this unique offering supports sustainability and delivers unparalleled strength at half the weight of traditional vaults. Meticulously customized with WSA's integrated storage capabilities, the **Sky LightWeight Vault** accommodates a comprehensive range of critical assets, from pistols to heavy weapons. Independently tested and certified to Australian & New Zealand Standards AS/NZS 3809:1998 Grade XI (Equivalent to UL608 Class 2), the **Sky LightWeight Vault** provides the highest levels of security and protection.

Mobile Container Vaults

Sustainability

Every **Sky LightWeight Vault** eliminates tonnes of concrete used in traditional vault construction. Its barrier panels incorporate recycled material recovered from decommissioned mines – one of the world's most challenging waste streams – reducing transport weight, fuel consumption, and landfill.

Sustainability Benefits at a Glance:

- **No concrete** – replaces traditional barrier material entirely
- **Half the weight** – fewer trucks, less fuel, lower transport emissions
- **Recycled mine waste** – reclaims material that would otherwise burden governments worldwide

Advanced Construction

Sky Vault panels and doors use high-strength laminated materials with a proprietary binding method, dramatically reducing weight while enhancing resistance to forced entry. Versatile by design, the system suits diverse installations including shipping containers.

Panel thickness	Weight	Grade
100ml	140kg/m2 V11	(Grade 7)
160mm	224kg/m2 X1	(Grade 11, UL Class 2 equiv.)

The **SKY Lightweight Modular Vault System** has been independently tested in Australia and is certified in accordance with Australian & New Zealand Standards AS/NZS 3809:1998

Power and Charging

Weapon Storage Australia offers a range of storage options for the storage of Powered equipment and accessories. Lithium Battery Charging and Storage Cabinets, Racks, Storage Boxes and Shelves. WSA Systems can be configured to accommodate any manner of Equipment or Accessories including Drones.

Radios, AXON Body Camera and Taser Docks, Torches

Lithium Battery Charging & Storage Cabinets

Multifile's Lithium Battery Charging cabinets have been designed with a Fire Wall Insulation between the external and internal surfaces of the steel to aid in impeding the spread of fire should it occur within the cabinet.

Features:

- Available in 8, 12 and 20 station versions
- Fire Wall insulation rated to 1460 degrees C
- German designed cooling fans
- All electrical components Australian approved

Lithium Battery Storage Cabinet

Multifile's Class 9 Cabinets are for the storage of miscellaneous dangerous goods in compliance with AS/NZS 4681:2000. Class 9 is particularly relevant for the storage of lithium batteries.

- Fully compliant to AS/NZS 4681:2000
- Available in 30, 60, 100, 160, and 250 litre sizes
- Perforated shelves allow for spilled liquids to migrate into the cabinet sump
- Self-closing doors

RAAF Parachute and Helmet Storage

Used in conjunction with the Expandable Weapons Rack the Hanging Bar and Flat Shelf are designed to accommodate Parachutes, Helmets, and Equipment as used by Paratroopers and Special Forces.

Naval and Shipboard Storage

Weapons Storage Australia's Systems can be found across a large number of Royal Australian Navy Vessels from Canberra Class Vessels to Patrol Boats. Due to their Versatile and Robust Construction WSA's Systems are well suited for use in Shipboard Applications.

Custom Shipboard Wall Panels & Tambour Door Cabinets

WTSS Tethered and Bluetooth Training Weapons

WSA's weapons storage systems cater for the storage of Tethered, Bluetooth and inert Weapons used in training and WTSS Weapon Training Simulation System facilities as well as armouries and mobile weapons carts. These systems are used on all Military Bases, Australia Wide.

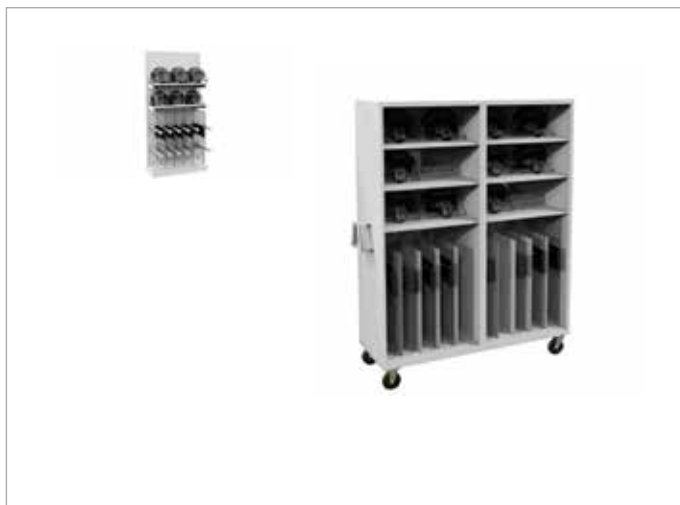

Touch Free Inventory And Stocktakes

WSA has developed a range of new components which are compatible with our universal integrated weapons system that position weapons to allow for touch free fortnightly audits of armouries with increased speed and efficiency. Australian Defence Approved.
